2025 Filing Season Starts as IRS Begins Accepting Tax Returns

The Internal Revenue Service opened the 2025 tax filing season and is accepting and processing federal individual tax year 2024 returns.

During the early morning opening, IRS systems have already received millions of tax returns from across the nation for processing.

The IRS expects more than 140 million individual tax returns for tax year 2024 to be filed ahead of the Tuesday, April 15 federal deadline.

Report taxable income; don't file before receiving key documents

People should report all taxable income on their tax return and wait to file until they receive all of their income and informational documents. Taxpayers may receive various income and information statements such as Forms 1099 from banks or other payers, [unemployment compensation](#), [dividends](#), [pensions](#), [annuities or retirement plan](#) distributions. Taxpayers receiving [Forms 1099-K](#), for payments on sale of goods and services through an online marketplace or payment app, can visit [What to do with Form 1099-K](#) to help them figure and report the correct amount of income on their tax return.

Be aware of tax scams

Be aware of scammers, who can become more active during tax season. They will attempt to mislead people about tax refunds, credits and payments. They pressure people for personal, financial, employment information or money.

Watch out for:

- A big payday. If it sounds too good to be true, it probably is. Bad tax advice on social media may convince people to lie on tax forms or mislead them about credits they can claim.
- Demands or threats. Impersonators want people to pay “now or else.” They threaten arrest or deportation. They don't let people question or appeal the amount of tax they owe.
- Odd or misspelled website links. Odd or misspelled web links can take people to harmful sites instead of IRS.gov.

Tax-related identity theft occurs when someone uses stolen personal information, including Social Security numbers, to file a tax return claiming a fraudulent refund. If a person suspects they are a victim of identity theft, they should continue to pay their taxes and file their tax return, even if they must file a paper return. Visit [Identity Theft Central](#) to find out more.

Know the signs of identity theft

Thousands of people have lost millions of dollars and their personal information to tax scams. Scammers use the regular mail, telephone and email to set up individuals, businesses, payroll and tax professionals. Check out the latest [consumer alerts](#) and read more about the most recent tax related scams identified by the IRS.

IRS Individual Online Account.

The IRS continues to add more functionality to this important tool. Individuals can create or access their IRS Online Account at [Online account for individuals](#). With an IRS Online Account, people can:

- View key details from their most recent tax return, such as adjusted gross income.
- Request an Identity Protection PIN.
- Get account transcripts, to include wage and income records.
- Sign tax forms like powers of attorney or tax information authorizations.
- View and edit language preferences and alternative media.
- Receive and view over 200 IRS electronic notices.
- View, make and cancel payments.
- Set up or change payment plans and check their balance.
